Selling Price per Square Foot

The Selling Price per Square Foot is a great indicator for the direction of Property values. Since Median Sales Price and Average Sales price can be impacted by the 'mix' of high or low end Properties in the market, the selling price per square foot is a more normalized indicator on the direction of Property values. The June 2010 Selling Price per Square Foot of \$255 was down 1.9% from \$260 last month and down 12.8% from 292 in June of last year.

Selling Price vs Original Listing Price

The Selling Price vs Original Listing Price reveals the average amount that Sellers are agreeing to come down from their original list price. The lower the ratio is below 100% the more of a Buyer's market exists, a ratio at or above 100% indicates more of a Seller's market. The June 2010 Selling Price vs Original List Price of 96.5% was down from 97.8% last month and down from 98.4% in June of last year.
